THE NEW PRESBYTERIAN CHURCH.

A new epoch dawned in the history of the Presbyterian Church in this town on Sunday last, when the congregation for the first time assembled for divine service in their new and handsome church. The building has been completed, and reflects great credit upon the contractors Messrs. Goodfellow Bros., who did the wood work, and Mr. R. G. Congdon who did the brick and stone work. The church will be dedicated after the new pews are put in. A firm in Western Ontario will do this part of the work, and will be in keeping with the building. In the meantime all the seats used in the old church have been removed to the new church, and although seating for fifty more were put in, every seat was full on Sunday evening. The Rev. Mr. Rochester, pastor of the congregation, has been most indefatigable in his efforts in pushing forward the new building. Last evening (Tuesday) a reunion of the congregation was held, when final steps for the seating of the building was taken. The ladies of the congregation provided all that was necessary for the dinner and the audience was delighted with some beautiful selections rendered by the choir.

TOWN COUNCIL

At a Journal meeting of the Council was held on Monday evening. His Worship sat on his exalted seat, surrounded by the wisdom of the town.

Several communications were received and disposed of. A By Law for the appointment of Returning Officer and Deputy Returning Officers, etc., was introduced and put through its first two stages.

Cous. McLellan, chairman of the Health and Relief Committee presented his final report, showing the small expenditure of \$9 50.

There was considerable discussion over the report of the Board of Works which was laid over for further consideration. The Council extended the time for the return of the Collector's Roll until 4th January next.

The Clerk was instructed to purchase 1,000 copies of January number of the Western World.

The Board of Works was ordered to fill holes for poles made by the Electric Light Company. They have been left uncovered, and are very dangerous. The company should be prosecuted by the town for their negligence and carelessness, and their manager deserves the severest censure for not looking after the matter after having been notified so often about it.

This concluded the 41st session of the sixth parliament of the town.

BUCK LAKE.

Nothing new in town. The stores are busy getting in Xmas goods. The H. B. Co. are showing a very new stock of fancy goods much superior to anything shown here before, while the old stand by, Stobart & Co., have surprised even themselves. Ambrose is paying sole attention to the fancy goods department of the latter store and is doing a rushing trade.

Our police court was very busy on Monday, no less than three J. P.'s being on the bench. The case was the Queen vs. F. Fourand, Fish Creek, for perjury. This grew out of the late Batoche election, it being claimed that the prisoner had no vote in the district yet took the oath and voted. Decision was reserved until Monday next. W. R. Gunn for the Crown, Philip Garnot for defendant.

Quite a number of cattle died on One Arrow's reserve last week. The symptoms went to show that it was poison caused their death.

Chas. Nolin the celebrated, was served with papers protesting his election for Batoche on Monday. The trial will come off here in the first week in January. There is no doubt but Nolin will be unseated.

Mr. Mitchell, M.L.A., Mrs. Mitchell and maid, left on Monday for Regina. After the session is over it is likely Mr. Mitchell and family will visit England.

The C. P. R. fire outfit make two trips daily to the town well. Mr. John Kush has got the handling of the fire apparatus down fine.

Mr. T. O. Davis has been in town for a few days. It is hinted he is aspiring to a seat in the Dominion House.

HAPPINESS.

Happiness often consists in reading a good paper, one that leaves a pleasant taste in the mouth, one that you can rise up from perusing with the knowledge that you have gained something of permanent advantage. There are papers which do not give this happiness, but which, while exciting for the moment, result in permanent evil, although the immediate effect at the moment may not be apparent. The Montreal Witness is a paper of the former class. It is good; it does good. The Weekly edition is sent to subscribers for one dollar a year, the Daily for three dollars, and the Northern Messenger, a paper for the younger members of the family particularly and for Sunday Schools, for thirty cents a year.

The subscribers of THE TIMES can have it and the Montreal DAILY WITNESS for \$3 50, THE TIMES and the WEEKLY WITNESS for \$2 25, and the MESSENGER with either of them for 25 cents extra.

THE MOOSEJAW FIRE

MOOSEJAW, Dec. 12.—About 1 o'clock this morning a fire broke out in the Foley block, which is situated on the south end of Main street, and within half an hour, with the aid of a strong south west wind which was blowing at the time, and before the inhabitants could be well aroused from their slumbers, nearly the whole south side of Main street was in flames. The chemical engine was brought into requisition as quickly as possible, but owing to the fire having made such headway it was impossible owing to the intense heat to get near enough the fire for the chemicals to have any effect until the charges were all exhausted.

The loss of property is nothing in comparison with the lives that were lost. Mr. Jackson, who was proprietor of the Lorne House in the Foley block, was burned to death in trying to rescue his little daughter, who was sleeping in another department, but failed, both perishing in the flames. Miss Ruth McDougall, who was stopping with the family, was also burned to death. Mrs. Jackson escaped through the window, receiving serious injuries. She was badly burned about the head, and has since died. Jas. Hood, shoemaker, who has a large family, barely escaped with the clothes on his back. The loss will not be less than \$50,000. With the exception of two or three buildings, most of the property is insured. The fire started from a chimney in the Foley block.

THE ASSEMBLY.

Opening of the First Session of the Second Territorial Legislative Assembly.

The first session of the Second Legislative Assembly of the Territories opened yesterday with the usual ceremonies. A company of Police mounted on their chargers accompanied His Honor the Lieutenant Governor as a body-guard.

As soon as His Honor took his place on the dais Mr. Haultain stepped forward and announced that James Hamilton Ross had been chosen to be the Speaker of the Assembly.

Mr. Speaker Ross then approached His Honor the Lieutenant-Governor, seeking for the Members the usual privileges and immunities, all of which were readily granted. His Honor then read in clear and distinct tones the following

SPEECH:

Gentlemen of the Legislative Assembly:

In opening the first session of the Second Legislature, I have to congratulate you upon the abundant harvest with which Providence has this year blessed the labor of the husbandman. Not only has our wheat been harvested in good condition, but its quality is even better than that of previous years, which obtained such a world wide reputation; and it is also satisfactory to learn that our wheat standards are now fixed on the American and English Exchanges.

The ranchman has also good reason to be thankful for the high state of prosperity that has met his efforts and the investment of his large capital.

As the richness of the soil and the productive capacity of the Territories become each year more widely known, we see a corresponding increase in the number of settlers, and in the area brought under cultivation, and a greater degree of comfort and contentment prevailing throughout the length and breadth of this land of promise.

Since the prorogation of the last Assembly, one of the richest districts of the Territories has been opened up by the construction of a line of railway, some 100 miles in length, from the thriving town of Calgary to the beautifully situated town of Edmonton, the great distributing point for the Northern organized portion of the Territories.

The Canadian Pacific Railway are to be congratulated upon the wisdom and foresight exhibited by them in their efforts to connect with the markets of the world those portions of our country, which only await the toil and labor of the immigrant to become smiling fields of wheat.

Another, and not an unimportant line of railway, is now under construction between Calgary and the lively town of McLeod. This line, when finished, will traverse under the brow of the majestic Rockies, the whole of the rich grass-covered plateaus and valleys of the ranching districts of the south-west. In the south-east another branch line of railway is about to be constructed by the Canadian Pacific Railway Company, which will attract the attention of the immigrant and bring a vast and fertile section of country within reach of a market.

Allow me here to call your earnest attention and that of the farming community to the importance of developing the dairy industry of the Territories. There is no reason why the cheese and butter industry of this country, if properly and intelligently managed, should not soon become as remunerative to the farmer as the growing of grain or the raising of stock. Stimulated by the success of Holland, Denmark, Belgium and the North of France, the Canadian Government is sparing no effort to build up the dairy interest in Canada, and by suitable instruction to enable the Canadian agriculturist to compete with those countries which owe to these products a large measure of their financial solidity.

It will be to our advantage to assist, as far as possible, the Federal Government in this great work, by endeavoring to secure for it the hearty co-operation of the farming community, so largely represented in this Legislature. Its success will afford an additional reason for pride in our vast and fertile country, with its immense possibilities, in its noble and free institutions, the law abiding character of its people, its loyalty to the British Crown, and for an unbounded faith in its future development as a distinct and strong nationality in the Northern Continent of America.

Gentlemen of the Legislative Assembly:

By virtue of an Act passed last Session by the Parliament of Canada, it is enacted that this Legislature shall, subject to certain provisions, have power to make Ordinances in relation to various subjects, and, amongst others, the expenditure of Territorial Funds, and such portion of any monies appropriated by Parliament for the Territories, as the Lieutenant Governor is authorized to expend by and with the advice of the Legislative Assembly, or of any Committee thereof.

It will be for you to consider whether, in addition to the usual organization of Standing Committees, the formation of any further Committee is required for the satisfactory discharge of the new duties imposed upon you.

I shall be most happy to see, in all other matters connected with your Legislative functions, to act with you cordially and readily.

It may be well to call your attention to the limited extent of the School Grant for the present year, which will involve a remodelling of the basis upon which these monies have hitherto been expended.

In response to repeated Memorials from the Territorial Legislature, the Parliament of Canada has now clothed you with the power of legislating in respect to intoxicating liquors; an exception being made regarding the portion of the Territories not represented in this Assembly.

I trust that whatever your action may be with regard to this grave question, it will tend to preserve the high reputation for order and morality now possessed by the people of the Territories.

A statement of the receipts and expenditure of the General Revenue Fund will be laid before you, with the Auditor's Report.

Gentlemen of the Legislative Assembly,

I feel confident that the result of your deliberations on the various measures, which may be brought before you, will be for the advantage and prosperity of the Territories, and may the Divine Providence direct you in the discharge of your important duties.

Immediately upon the conclusion of the address His Honor and the Judges who accompanied him withdrew.

On motion of Mr. Tweed seconded by Mr. Clinkskill it was resolved that the speech of His Honor be taken into consideration on Monday.

Mr. Cayley moved, seconded by Mr. Mitchell: That the Standing Committees of the House for this session be the following:

1. Civil Justice.
2. Agriculture.
3. Education.
4. Private Accounts and Printing.
5. Standing Orders and Library.
6. Immigration.

And that said Committees shall be severally empowered to examine into all such matters as shall be referred to them; to report upon the same from time to time their operations and opinions thereon, with power to send for persons, papers and records.

Mr. Davidson moved, seconded by Mr. Sutherland: That a special Committee consisting of Messrs. Tweed, Cayley, Haultain, the Mover and Second be appointed to prepare and report with due speed a list of members to compose the several standing committees. Carried.

The House was then adjourned.

The hum of the candidates is beginning to be heard through the town. Very little interest is being taken in civic affairs this year, though some opposition is spoken of. Saturday evening's train brought in a gang of men to work on the Macdowall spur extension of the railway. Work was commenced Monday morning. The ties are now in position and ironing has been commenced.

Goodfellow Bros' grist mill has commenced. Everything is running very smoothly, but we understand the bolting cloth has to be renewed, it being rather too close. The new bolt has been ordered and will arrive here this week.

The weather for the past few weeks has been simply delightful for this season of the year, the thermometer at times getting amongst the sevenies. Sleighing for pleasure is not so bad, but a six inch fall of snow would be gladly welcomed by teamsters as the snow is too light for heavy loads.

Don't fail to attend the Bazaar on Friday afternoon and evening next at the Town Hall. The Ladies' Aid have been to great trouble and expense to make the Bazaar a success, and we hope to see a large turn out of our townspeople to encourage them in their efforts. Don't miss it. The admission is only two cents and you can get a good tea for twenty-five cents.

Arrivals at the Leland—A. A. Campbell, N. McAulay, Wiloughby; Jas. McKay, M. Campbell, Macdowall; W. A. Johnson, Morris, Man; A. P. Forget, Henry Sayer, Battleford; D. McIntosh, Regina; James Kelly, North Dakota; A. Piet, Prince Albert; P. Tourond, F. Tourond, Fish Creek; P. Girard, Batoche; W. H. Fox, E. Kharo, Man.

Mr. T. Oram, the genial proprietor of the Queen's, left on Monday morning for Montreal on a few weeks visit to his friends who reside there. Mr. Oram came to Manitoba with the first expedition—over twenty years ago—and this is his first visit home since then. While in Montreal he will take medical advice in regard to the ailments from which he has been suffering of late years.

Coun. Donaldson has decided to enter the field for the mayor's chair at the coming civic election, Mayor Johnson having declared his intention of not again being a candidate. From Coun. Donaldson's experience in civic matters, we have no hesitation in saying he will make an excellent chief magistrate for the town. His success is assured beforehand. Read his card in another column.

The committee who have undertaken the management of the two entertainments to be given on the 28th and 29th inst., by the curlers of the town are doing good work and making solid story progress. For the first evening's programme a dramatic piece is being prepared, while the second evening's programme will be of a musical character. Judging from the well known ability of the ladies and gentlemen who are to take part, we are quite sure is promising one of the best entertainments of the kind ever held in the town.

We have received a copy of the handsomely illustrated prospectus for 1892 issued by the *Detroit Free Press*. The achievements of this famous paper in the past have been great, but if its promises for the future are to be fulfilled—and there certainly is no reason to expect the contrary—the *Detroit Free Press* will in 1892 be, as its publishers confidently claim, the most entertaining and instructive paper published, giving additional pleasures to its thousands of old subscribers and fresh enjoyment to the many thousand new ones that its merits deserve. Its list of contributors for 1892 includes many of the most famous names in American literary and public life, and most of the articles to be published are of unusual importance and interest, presenting a splendid array of valuable features in addition to the inimitable work done by its own staff of bright and famous writers. The publishers of the *Free Press* will mail copies of the paper and prospectus to all applicants.

How does he feel?—He feels cranky, and is constantly experimenting, dieting himself, adopting strange notions, and changing the cooking, the dishes, the hours, and manner of his eating—August Flower the Remedy.

How does he feel?—He feels at times a gnawing, voracious, insatiable appetite, wholly unaccountable, unnatural and unhealthy.—August Flower the Remedy.

How does he feel?—He feels no desire to go to the table and a grumbling, fault-finding, over-nicety about what is set before him when he is there.—August Flower the Remedy.

How does he feel?—He feels after a spell of this abnormal appetite an utter abhorrence, loathing, and detestation of food; as if a mouthful would kill him.—August Flower the Remedy.

How does he feel?—He has irregular bowels and peculiar stools.—August Flower the Remedy.
